THE ARMITAGE BROTHERS PENSION AND LIFE ASSURANCE SCHEME
STATEMENT OF INVESTMENT PRINCIPLES

SEPTEMBER 2020

TABLE OF CONTENTS

1 INTRODUCTION

This Statement of Investment Principles ("the Statement") has been prepared by the Trustees of the Armitage Brothers Pension and Life Assurance Scheme ("the Scheme") in accordance with Section 35 of the Pensions Act 1995, as amended, and its attendant Regulations.

The Statement outlines the principles governing the investment policy of the Scheme and the activities undertaken by the Trustees to ensure the effective implementation of these principles.

In preparing the Statement, the Trustees have:

- Obtained and considered written advice from a suitably qualified individual, employed by their investment Adviser, Mercer, a trading name of JLT Benefit Solutions Limited, whom they believe to have a degree of knowledge and experience that is appropriate for the management of their investments;
- Completed, via their investment Adviser Mercer, satisfactory due diligence with regard to the Investment Manager, JLT Investment Management ("JLT IM"); and
- Consulted with the Sponsoring Employer, although they affirm that no aspect of their strategy is restricted by any requirement to obtain the consent of the Sponsoring Employer.

The advice and the consultation process considered the suitability of the Trustees' investment policy for the Scheme.

The Trustees will review the Statement formally at least every three years to coincide with the triennial Actuarial Valuation or other actuarial advice relating to the statutory funding requirements. Furthermore, the Trustees will review the Statement without delay after any significant change in investment policy. Any changes made to the Statement will be based on written advice from a suitably qualified individual and will follow consultation with the Sponsoring Employer.

2 INVESTMENT OBJECTIVES

The Trustees' primary investment objective for the Scheme is to achieve an overall rate of return that is sufficient to ensure that assets are available to meet all liabilities as and when they fall due.

The Trustees wish to ensure that they can meet their obligations to the beneficiaries both in the short and long term.

The Trustees recognise that the investment performance of the Scheme's assets will not usually have a direct impact on the members' benefits. The investments can have an indirect impact on the members' benefits if they alter the sponsoring employer's ability and/or willingness to continue to support the Scheme.

With that in mind, the Trustees have set specific investment objectives regarding the manner in which the primary objective of meeting their obligations to the members is to be achieved:

- To pay the Scheme benefits as they fall due and avoid any reduction in benefits if possible
- To achieve and maintain a funding level of 100% on the on-going funding basis
- To minimise risk in achieving and maintaining a 100% funding level on the on-going funding basis subject to acceptable affordability
- To pay due regard to the interests of the sponsoring employer in relation to the funding of the Scheme.

The Trustees have also received confirmation from the Scheme Actuary during the process of revising the investment strategy that their investment objectives and the resultant investment strategy are consistent with the actuarial valuation methodology and assumptions used in the Statutory Funding Objective.

3 INVESTMENT RESPONSIBILITIES

3.1. TRUSTEES' DUTIES AND RESPONSIBILITIES

The Trustees are responsible for setting the investment objectives and determining the strategy to achieve the objectives. They carry out their duties and fulfil their responsibilities as a single body.

The duties and responsibilities of the Trustees include, but are not limited to, the following tasks and activities:

- The regular approval of the content of the Statement
- The appointment and review of the Investment Manager and Investment Adviser
- The assessment and review of the performance of each underlying investment manager
- The setting and review of the investment parameters within which the investment managers can operate
- The assessment of the risks assumed by the Scheme at total scheme level and manager by manager
- The approval and review of the asset allocation benchmark for the Scheme
- The compliance of the investment arrangements with the principles set out in the Statement

3.2. INVESTMENT ADVISER'S DUTIES AND RESPONSIBILITIES

The Trustees have appointed Mercer as the Investment Adviser to the Scheme. Mercer provides advice as and when the Trustees require it, as well as raising any investment-related issues, of which it believes the Trustees should be aware. Matters on which Mercer expects to provide advice to the Trustees include the following:

- Setting of investment objectives
- Determining investment strategy and asset allocation
- Determining an appropriate investment structure
- Liaising with JLT Investment Management ("JLT IM") to determine funds and investment managers that are suitable to meet the Trustees' objectives
- Setting cashflow management (investment and withdrawal) policies (see Appendix 2)

Section 3.3 describes the responsibilities of JLT IM as investment manager to the Scheme.

The Trustee may seek advice from Mercer with regard to both strategic and tactical investment decisions (see Section 4 - Investment Strategy); however, they recognise that they retain responsibility for all such decisions, including those that concern investments and disinvestments relating to cashflows (see Appendix 2). Mercer may be proactive in advising the Trustee regarding tactical investment decisions; however, there is no responsibility placed on Mercer to be proactive in all circumstances.

Mercer monitors the performance of the Scheme's Investment Managers against their benchmarks.

Mercer makes a fund based charge for the services it provides as set out in its investment agreement with the Trustee.

Any additional services provided by Mercer will be remunerated primarily on a time-cost basis.

In particular, Mercer does not receive commission or any other payments in respect of the Scheme that might affect the impartiality of their advice.

The Trustee is satisfied that this is the most appropriate adviser remuneration structure for the Scheme.

Mercer is authorised and regulated by the Financial Conduct Authority ("FCA").

3.3. INVESTMENT MANAGER ARRAGEMENTS

The Trustee plans to hold each of its investments for the long term but will keep this under review.

Changes in investment strategy or change in the view of the fund manager can lead to the duration of the arrangement being shorter than expected.

The Trustee, after considering appropriate investment advice, have appointed JLT IM as the Investment Manager to the Scheme. The key duty of JLT IM is to select the underlying investment managers suitable to each mandate within the Trustees' agreed asset allocation.

Investment managers are appointed by JLT IM based on their capabilities and, therefore, their perceived likelihood of achieving the expected return and risk characteristics required for the asset class being selected.

The Scheme invests in pooled funds and so the Trustee acknowledges the fund's investment strategy and decisions cannot be tailored to the Trustee's policies. However, the Trustee sets its investment strategy and then selects managers that best suits its strategy taking into account the fees being charged, which acts as the fund managers incentive.

The Trustee uses the fund objective/benchmark as a guide on whether its investment strategy is being followed and monitors this regularly.

If a manager is significantly downgraded by Mercer's Manager Research Team, JLT IM will replace that manager with a suitable alternative.

The underlying investment managers are responsible for all decisions concerning the selection and de-selection of the individual securities within the portfolios they manage.

In the case of multi-asset mandates, the underlying investment managers are responsible for all decisions concerning the allocation to individual asset classes and changes in the allocations to individual asset classes.

All of the investment managers that will be selected by JLT IM will be authorised and regulated by the PRA, the FCA or both.

The underlying investment managers are remunerated by ad valorem charges based on the value of the assets that they manage on behalf of the Scheme. Where possible, discounts have been negotiated by JLT IM with the underlying managers on their standard charges and the Scheme benefits directly from these discounts.

None of the underlying managers in which the Scheme's assets are invested have performance based fees which could encourage the manager to make short term investment decisions to hit their profit targets.

The Trustee therefore considers that the method of remunerating fund managers is consistent with incentivising them to make decisions based on assessments of medium to long-term financial and non-financial performance of an issuer of debt or equity. By encouraging a medium to long-term view, it will in turn encourage the investment managers to engage with issuers of debt or equity in order to improve their performance in the medium to long-term.

JLT IM makes a fund based charge for the services it provides. This charge is specified in the contractual agreement between the Trustee and JLT IM. JLT IM does not receive commission or any other payments in respect of the Scheme that might affect the impartiality of its actions and any discounts negotiated by JLT IM with the underlying managers are passed on in full to the Scheme.

The Trustee believes that this is the most appropriate basis for remunerating managers.

JLT IM is authorised and regulated by the FCA.

JLT IM is also responsible for appointing a suitable Platform provider, which will provide the infrastructure to support the Scheme's investments and host the underlying investment managers' funds. The current Platform provider is Mobius Life Limited, whose appointment foregoes the need for a Custodian. Mobius Life Limited is authorised by the Prudential Regulation Authority ("PRA") and regulated by the FCA and the PRA.

3.4. SUMMARY OF RESPONSIBILITIES

A summary of the responsibilities of all relevant parties, including the Scheme Actuary and the scheme administrators, so far as they relate to the Scheme’s investments, is set out at Appendix 4.

4 INVESTMENT STRATEGY

4.1. SETTING INVESTMENT STRATEGY

The Trustees have determined their investment strategy after considering the Scheme's liability profile and requirements of the Statutory Funding Objective, their own appetite for risk, the views of the Sponsoring Employer on investment strategy, the Sponsoring Employer's appetite for risk, and the strength of the Sponsoring Employer's covenant. The Trustees have also received written advice from their Investment Adviser.

The basis of the Trustees' current investment strategy has taken into consideration the Trustees' objective to engage in a Scheme buyout with an insurance company at a future date, and therefore allocates all of the Scheme's assets to "stabilising" funds, comprising assets such as bonds (gilts, index linked gilts and corporate bonds), multi asset credit ("MAC") and liability driven investments ("LDI"). The allocation is set with regard to the overall required return objective of the Scheme's assets, which is determined by the funding objective and current funding level. In addition, the Scheme's requirement for liquidity is also considered when setting the strategic asset allocation. Thus, the Trustees regard the basic distribution of the assets to be appropriate for the Scheme's objectives and liability profile.

The Trustees have established a benchmark allocation to each asset class within each strategic asset allocation, which is set out in Appendix 1.

The Trustees recognise the benefits of diversification within various stabilising asset classes, in reducing the risk that results from investing in any one particular market. Where they consider it advisable to do so, the Trustees have appointed investment managers to select and manage the allocations across the portfolio, in particular where it would not be practical (or appropriate) for the Trustees to commit the resources necessary to make these decisions themselves.

In respect of the investment of contributions and any disinvestments to meet member benefit payments, the Trustees have decided on a structured approach to rebalance the assets in accordance with their overall strategy. This approach is set out in Appendix 2.

4.2. INVESTMENT DECISIONS

The Trustees distinguish between three types of investment decision: strategic, tactical and stock-level.

Strategic Investment Decisions

These decisions are long-term in nature and are driven by an understanding of the objectives, needs and liabilities of the Scheme.

The Trustees take all such decisions themselves. They do so after receiving written advice from their Investment Adviser and consulting with the Sponsoring Employer. Examples of such decisions and of tasks relating to the implementation of these decisions include the following:

- Setting investment objectives
- Determining the split between the growth and the stabilising portfolios
- Determining the allocation to asset classes within the growth and stabilising portfolios
- Determining the Scheme benchmark
- Reviewing the investment objectives and strategic asset allocation

Tactical Investment Decisions

These decisions are short-term and based on expectations of near-term market movements. Such decisions may involve deviating temporarily from the strategic asset allocation and may require the timing of entry into, or exit from, an investment market or asset class.

These decisions are the responsibility of the Trustees. However, where such decisions are made within a pooled fund, they are the responsibility of the investment manager of the fund.

Stock Selection Decisions

All such decisions are the responsibility of the investment managers of the pooled funds in which the Scheme is invested.

4.3. TYPES OF INVESTMENTS TO BE HELD

The Trustees are permitted to invest across a wide range of asset classes, including, but not limited to, the following:

- UK and overseas equities
- UK and overseas government bonds, fixed and inflation-linked
- UK and overseas corporate bonds
- Convertible bonds
- Property
- Commodities
- Hedge Funds
- Private equity
- High yield bonds
- Emerging market debt
- Diversified growth
- Liability Driven Investment (“LDI”) products
- Cash

All the funds in which the Scheme invests are pooled and unitised. The use of derivatives is permitted by the guidelines that apply to the pooled funds. Details relating to the pooled funds can be found in Appendix 3.

4.4. FINANCIALLY MATERIAL CONSIDERATIONS

The Trustee has considered financially material factors such as environmental, social and governance (‘ESG’) issues as part of the investment process to determine a strategic asset allocation over the length of time during which the benefits are provided by the Scheme for members. It believes that financially material considerations are implicitly factored into the expected risk and return profile of the asset classes they are investing in. However, the Trustee has not made an explicit allowance for risks associated with climate change as they believe it is difficult to accurately quantify.

In endeavouring to invest in the best financial interests of the beneficiaries, the Trustee has elected to invest through pooled funds. The Trustee acknowledges that it cannot directly influence the environmental, social and governance policies and practices of the companies in which the pooled funds invest. However, the Trustee does expect its fund managers and investment consultant to take account of financially material considerations when carrying out their respective roles.

The Trustee accepts that the Scheme’s assets are subject to the investment manager’s own policy on socially responsible investment. The Trustee will assess that this corresponds with its responsibilities to the beneficiaries of the Scheme with the help of its investment consultant.

An assessment of the ESG and responsible investment policies forms part of the manager selection process when appointing new managers and these policies are also reviewed regularly for existing managers with the help of the investment consultant. The Trustee will only invest with investment managers that are a signatories for the United Nations Principles of Responsible Investment (‘UN PRI’) or other similarly recognised standard.

The Trustee will monitor financially material considerations through the following means:

- Obtain training where necessary on ESG considerations in order to understand fully how ESG factors including climate change could impact the Scheme and its investments;
- Use ESG ratings information provided by its investment consultant, to assess how the Scheme's investment managers take account of ESG issues; and
- Request that all of the Scheme's investment managers provide information about their ESG policies, and details of how they integrate ESG into their investment processes, via its investment consultant.

If the Trustee determines that financially material considerations have not been factored into the investment managers’ process, it will take this into account on whether to select or retain an investment.

4.5. NON-FINANCIALLY MATERIAL CONSIDERATIONS

The Trustee has not considered non-financially material matters in the selection, retention and realisation of investments.

4.6. STEWARDSHIP, CORPORATE GOVERNANCE AND VOTING POLICY

The Trustee’s policy on the exercise of rights attaching to investments, including voting rights, is that these rights should be exercised by the investment manager on the Trustee’s behalf, having regard to the best financial interests of the beneficiaries.

The investment manager should engage with companies to take account of ESG factors in the exercise of such rights as the Trustee believes this will be beneficial to the financial interests of members over the long term. The Trustee will review the investment managers’ voting policies, with the help of its investment consultant, and decide if they are appropriate.

The Trustee also expect the fund manager to engage with investee companies on the capital structure and management of conflicts of interest.

If the policies or level of engagement are not appropriate, the Trustee will engage with the investment manager, with the help of its investment consultant, to influence the investment managers’ policy. If this fails, the Trustee will review the investments made with the investment manager.

The Trustee has taken into consideration the Financial Reporting Council’s UK Stewardship Code and expect investment managers to adhere to this where appropriate for the investments they manage..

4.7. ENVIRONMENTAL, SOCIAL AND GOVERNANCE (ESG) AND CLIMATE CHANGE RISK

There is a risk that ESG issues and climate change are not considered as part of the investment process and so may expose the portfolio to unexpected risks. This can lead to losses that may not have been factored into any expectations of future investment returns. The Trustee has considered ESG issues including climate change as part of the investment process.

5 RISK

The Trustees are aware, and seek to take account of a number of risks in relation to the Scheme’s investments, including the following:

Under the Pensions Act 2004, the Trustees are required to state their policy regarding the ways in which risks are to be measured and managed. These are set out below.

Solvency Risk and Mismatching Risk

- These are measured through a qualitative and quantitative assessment of the expected development of the assets relative to the liabilities.
- These are managed by setting a scheme-specific strategic asset allocation with an appropriate level of risk.

Manager Risk

- This is assessed as the expected deviation of the prospective risk and return, as set out in the managers’ objectives, relative to the investment policy.
- It is measured by monitoring the actual deviation of returns relative to the objective and factors supporting the managers’ investment process, and by Mercer’s manager research process.

Liquidity Risk

- This is monitored according to the level of cashflows required by the Scheme over a specified period.
- It is managed by holding an appropriate amount of readily realisable investments. The Scheme’s assets are invested in pooled funds which are readily realisable.

Political Risk

- This is measured by the level of concentration in any one market leading to the risk of adverse influence on investment values arising from political intervention.
- It is managed by regular reviews of the investments and through investing in funds which give a wide degree of diversification.

Environmental Risk

- This risk that improper, or inadequate, consideration of environmental factors could lead to adverse investment performance and / or reputational damage to the Scheme.
- The day to day management of environmental risk is the responsibility of the companies in which the Scheme’s underlying managers have invested. Given the Trustee is invested in pooled funds the Trustee will rely on the investment manager to ensure that these companies have sufficient procedures and processes in place in order to mitigate this risk as far as is reasonably possible.

Social Risk

- This is the risk that social factors are not properly considered within the investment decision making process. Social risks can arise both within and external to a company, e.g. internal factors could include workplace health & safety whilst external factors may include a company’s impact on the area surrounding their place of business.
- The day to day management of social risk is also the responsibility of the companies in which the Scheme’s underlying managers invest. It is the responsibility of the investment manager to ensure that these companies have sufficient procedures and processes in place in order to mitigate these risks as far as is reasonably possible.

Corporate Governance Risk

- This is assessed by reviewing the Scheme's investment managers' policies regarding corporate governance.
- It is managed by delegating the exercise of voting rights to the managers, who exercise this right in accordance with their published corporate governance policies. Summaries of these policies are provided to the Trustees from time to time and take into account the financial interests of the shareholders, which should ultimately be to the Scheme's advantage.

Sponsor Risk

- This is assessed as the level of ability and degree of willingness of the sponsor to support the continuation of the Scheme and to make good any current or future deficit.
- It is managed by assessing the interaction between the Scheme and the sponsor's business, as measured by a number of factors, including the creditworthiness of the sponsor and the size of the pension liability relative to the sponsor. Regular updates on employer covenant are provided to the Trustees by senior staff of the sponsor.

Legislative Risk

- This is the risk that legislative changes will require action from the Trustees so as to comply with any such changes in legislation.
- The Trustees acknowledge that this risk is unavoidable but will seek to address any required changes so as to comply with changes in legislation.

Credit Risk

- This is the risk that one party to a financial instrument will cause a financial loss for the other party by failing to discharge an obligation.
- The Trustees acknowledge that the assessment of credit risk on individual debt instruments is delegated to the investment manager. The Trustees will however ensure that they are comfortable with the amount of risk that the Scheme's investment manager takes.

Market Risk

- This is the risk the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises of the following three types of risk:

Currency Risk

- This is the risk that occurs when the price of one currency moves relative to another (reference) currency. In the context of a UK pension scheme, the scheme may be invested in overseas stocks or assets, which are either directly or indirectly linked to a currency other than Sterling. There is a risk that the price of that overseas currency will move in such a way that devalues that currency relative to Sterling, thus negatively impacting the overall investment return.
- For currency hedged funds, the Trustees acknowledge that currency risk related to overseas investments is hedged appropriately by the underlying investment managers.
- For funds where the currency risk is separately managed by the manager, the Trustees acknowledge that currency risk is delegated to the underlying investment managers where the manager is responsible for the decision of whether or not to hedge.

Interest Rate Risk

- This is the risk that an investment's value will change due to a change in the level of interest rates. This affects debt instruments more directly than growth instruments.
- The Trustees acknowledge that the interest rate risk related to individual debt instruments, and particularly liability driven investment (LDI) instruments, is managed by the underlying investment managers through a

combination of strategies, such as diversification, duration and yield curve management, and hedging via swaps, particularly where LDI is involved.

Other Price Risk

- This is the risk that principally arises in relation to the return seeking portfolio, which invests in equities, equities in pooled funds, equity futures, hedge funds, private equity and property.

Whilst the Trustees identify, and manage, a large proportion of the risks faced by the Scheme, it is not possible to completely eradicate a number of the above risks. The Scheme is closed to new members and future accrual, and when implementing the current investment strategy the Trustees have taken into consideration the future de-risking process to minimise the risks overtime.

6 MONITORING OF INVESTMENT ADVISER AND MANAGERS

6.1. INVESTMENT ADVISER

The Trustees continually assess and review the performance of their Investment Adviser in a qualitative way.

6.2. INVESTMENT MANAGERS

The Trustees receive quarterly monitoring reports on the performance of the underlying investment managers from Mercer on a quarterly basis, which presents performance information over 3 months, 1 year and 3 years. The reports show the absolute performance, performance against the manager's stated target performance (over the relevant time period) on a net of fees basis. It also provides returns of market indices so that these can also be used to help inform the assessment of the underlying managers' performance.

The Trustee assesses the performance periods of the funds over at least a 3-5 year period when looking to select or terminate a manager, unless there are reasons other than performance that need to be considered.

The fund managers' remuneration is considered as part of the manager selection process and is also monitored regularly with the help of its investment consultant to ensure it is in line with the Trustee's policies.

The Trustee selects managers based on a variety of factors including investment philosophy, and process, which it believes should include assessing the long term financial and non-financial performance of the underlying company.

The Trustee also considers the managers voting and ESG policies and how it engages with the company as it believes that these can factors can improve the medium to long-term performance of the investee companies.

The Trustee will monitor the fund managers' engagement and voting activity on an annual basis as they believe this can improve long term performance. The Trustee expects their managers to make every effort to engage with investee companies but acknowledges that their influence may be more limited in some asset classes, such as bonds, as they do not have voting rights.

The Trustee acknowledges that in the short term, these policies may not improve the returns it achieves, but do expect those companies with better financial and non-financial performance over the long term will lead to better returns for the Scheme.

The Trustee believes the annual fee paid to the fund managers incentivise them to do this.

If the Trustees feel that the fund managers are not assessing financial and non-financial performance or adequately engaging with the companies they are investing in, it will use these factors in deciding whether to retain or terminate a manager.

6.3. PORTFOLIO TURNOVER COSTS

Portfolio turnover costs means the costs incurred as a result of the buying, selling, lending or borrowing of investments.

The Trustee monitors the portfolio turnover costs on an annual basis.

The Trustee defines target portfolio turnover as the average turnover of the portfolio expected in the type of strategy the manager has been appointed to manager. This is monitored on an annual basis.

Given that the Scheme invests in a range of pooled funds, many of which invest across a wide range of asset classes, the Trustee does not have an overall portfolio turnover target for the Scheme.

The Trustees are working with Mercer to determine the most appropriate way to obtain and monitor the information required in relation to the pooled funds in which the Scheme is invested and will include further information about this when next updating the SIP.

7 ADDITIONAL VOLUNTARY CONTRIBUTIONS (AVCS)

Previously, the Scheme provided a facility for members who paid Additional Voluntary Contributions (“AVCs”) to enhance their benefits at retirement. Members were offered a range of funds in which to invest their AVCs with Clerical Medical, AXA (now Aviva), and Phoenix Life.

The Trustee is of the opinion that the type and range of facilities described above were suitable to provide for the requirements of Scheme members in any of the circumstances likely to arise.

The AVC facility is now closed to future accrual.

8 CODE OF BEST PRACTICE

The Trustees notes that in March 2017, the Pensions Regulator released 'Investment Guidance for Defined Benefit Pension Schemes'.

The Trustees has received training in relation to this guidance and is satisfied that the investment approach adopted by the Scheme is consistent with the guidance so far as it is appropriate to the Scheme's circumstances.

The Trustees meets with its investment adviser on a regular basis, monitoring developments both in relation to the Scheme's circumstances and in relation to evolving guidance, and will revise the Scheme's investment approach if considered appropriate.

9 COMPLIANCE

The Scheme's Statement of Investment Principles and annual report and accounts are available to members on request.

A copy of the Scheme's current Statement plus Appendices is also supplied to the Sponsoring Employer, the Scheme's investment managers, the Scheme's auditors and the Scheme Actuary.

This Statement of Investment Principles, taken as a whole with the Appendices, supersedes all others and was approved by the Trustees on ....

APPENDIX 1: ASSET ALLOCATION BENCHMARK

The Scheme's initial strategic asset allocation benchmark is set out below.

Asset Class	Strategic Allocation (%)	Guideline Range
Matching Assets	**100.0**	**+/-**
Multi Asset Credit (Defensive)	21.5	5.0
Multi Asset Credit (Balanced)	21.0	5.0
Corporate Bonds	20.0	5.0
Gilts	10.0	5.0
Index Linked Gilts	10.0	5.0
Real LDI	8.5	4.5
Nominal LDI	9.0	4.5
Total Assets	**100.0**	

Note 1 – LDI is being used as a stabilising asset to target an interest rate hedge ratio of c. 100% and an inflation rate hedge ratio of c. 100%.

The asset allocation will be monitored by JLT IM so as to maintain it within the guideline ranges.

The policy for rebalancing and investment / disinvestment of cashflows is set out in Appendix 2.

Appendix 3 provides information about the funds in which the assets are invested.

APPENDIX 2: CASHFLOW AND REBALANCING POLICY

Where possible, cash outflows will be met from cash balances held by the Scheme and from income from the Scheme's investments in order to minimise transaction costs.

Investments or disinvestments should be applied in such a way as to bring the actual asset allocation back towards the Scheme's central benchmark asset allocation, as set out in Appendix 1. The allocation to Real LDI and Nominal LDI should be exempted wherever possible, as both provide strategic stability to the Scheme's funding level.

The Trustees will review the cashflow policy from time to time to ensure that it remains appropriate taking into account changes in the Scheme's cashflow requirements.

For avoidance of doubt, this Statement will not be revised purely in relation to a change in cashflow policy.

APPENDIX 3: INVESTMENT MANAGER INFORMATION

The Scheme invests with JLT IM, whose key responsibility it to manage the portfolio within the Trustees' agreed investment strategy as set out in Appendix 1. The tables below show the details of the mandate(s) with each manager:

Manager / Fund	Benchmark	Objective	Dealing Frequency
Matching Assets			
Payden and Rygel Absolute Return Bond Fund	1 month LIBOR	To achieve a return of 1 month LIBOR + 3.0% p.a.	Daily
Stone Harbor High Yield Bond Fund	Citigroup High Yield Market Capped Index	To generate attractive risk-adjusted returns with a focus on capital preservation	Daily
Blackrock All Stocks Corporate Bond	iBoxx Sterling Non-Gilts Bond Index	To outperform the benchmark by 0.75% p.a. gross of fees	Daily
LGIM AA All Stocks Gilts Index Fund	FTSE A Government (All Stocks) Index	To track the performance of the FTSE A Government (All Stocks) Index to within +/- 0.25% p.a. for 2 years out of 3	Daily
LGIM Over 5 Year Index-Linked Gilts	FTSE A Index-Linked (Over 5 Year) Index	To track the performance of the FTSE A Index-Linked (Over 5 Year) Index to within +/- 0.25% p.a. for 2 years out of 3	Daily
Insight LDI RPI Solutions (Bucket)	A typical pension fund's liability cash flows, as determined by the Manager, (specific duration targeting).	To outperform the change in the present value of the liability benchmark over the long term.	Daily
Insight LDI Nominal Solutions Plus	A typical pension fund's liability cash flows, as determined by the Manager, (specific duration targeting).	To outperform the change in the present value of the liability benchmark over the long term.	Daily
BMO Nominal Dynamic LDI Fund	Cashflows for a typical pension scheme	To track a set of cashflows resembling a typical scheme, which will mature through time	Daily
BMO Real Dynamic LDI Fund	Cashflows for a typical pension scheme	To track a set of cashflows resembling a typical scheme, which will mature through time	Daily

APPENDIX 4: RESPONSIBILITIES OF PARTIES

TRUSTEES

The Trustees' responsibilities include the following:

- Reviewing at least triennially, and more frequently if necessary, the content of this Statement in consultation with the Investment Adviser and modifying it if deemed appropriate
- Reviewing the investment strategy following the results of each actuarial review, in consultation with the Investment Adviser and Scheme Actuary
- Appointing the Investment Manager(s) and custodian (if required)
- Assessing the quality of the performance and processes of the Investment Manager(s) by means of regular reviews of investment returns and other relevant information, in consultation with the Investment Adviser
- Consulting with the sponsoring employer regarding any proposed amendments to this Statement
- Monitoring compliance of the investment arrangements with this Statement on a continuing basis

INVESTMENT ADVISER

The Investment Adviser’s responsibilities include the following:

- Participating with the Trustees in reviews of this Statement of Investment Principles
- Production of performance monitoring reports
- Advising the Trustees, at their request, on the following matters:
  - Through consultation with the Scheme Actuary, how any changes within the Scheme’s benefits, membership, and funding position may affect the manner in which the assets should be invested
  - How any significant changes in the Investment Managers’ organisation could affect the interests of the Scheme
  - How any changes in the investment environment could present either opportunities or problems for the Scheme
- Undertaking project work, as requested, including:
  - Reviews of asset allocation policy
  - Research into and reviews of Investment Managers
- Advising on the selection of new managers and/or custodians

INVESTMENT MANAGERS

As noted in this SIP, JLT IM has been appointed as Investment Manager and will sub-contract with underlying investment managers on behalf of the Trustees.

JLT IM’s responsibilities include the following:

- Providing the Trustees on a quarterly basis (or as frequently as required) with a statement and valuation of the assets and a report on their actions and future intentions, and any changes to the processes applied to their portfolios
- Informing the Trustees of any changes in the internal performance objectives and guidelines of any pooled fund used by the Scheme as and when they occur
- Having regard to the need for diversification of investments, so far as appropriate for the particular mandate, and to the suitability of investments
- Giving effect to the principles contained in the Statement as far as is reasonably practicable

The underlying investment managers contract with JLT IM and therefore do not have any direct responsibility to the Trustees.

SCHEME ACTUARY

The Scheme Actuary's responsibilities include the following:

- Liaising with the Investment Adviser regarding the suitability of the Scheme's investment strategy given the financial characteristics of the Scheme
- Assessing the funding position of the Scheme and advising on the appropriate response to any shortfall
- Performing the triennial (or more frequent, as required) valuations and advising on the appropriate contribution levels

ADMINISTRATOR

The Administrator's responsibilities include the following:

- Ensuring there is sufficient cash available to meet benefit payments as and when they fall due
- Paying benefits and making transfer payments
- Investing contributions not required to meet benefit payments with the Investment Managers according to the Trustees' instructions.
